

XM's instant traffic & weather is a valuable asset to me and other motorists on the road. It allows me to avoid heavily congested areas caused by accidents. This is not only a benefit to me, but also to other motorists as I am not adding my vehicle to an already over crowded roadway. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160.

Thank You,

Paul Hollingsworth
